

Year Group: Years 1 and 2 (KSI) Date: Monday 27th April 2020

Subject: Geography - Our World

LO: I can identify cold locations in the world and recognise their similarities and differences.

Prior learning: The temperature around the world is different? Which continent is the hottest and which is the coldest and why?

Key Facts:

- The North Pole and South Pole are at opposite ends of the Earth.
- The North Pole is known as the Arctic and the South Pole is known as the Antarctic.
- They both have cold climates due to them being the furthest away from the equator.

New learning:

Listen to the following audio book all about the North Pole and South Pole.

Ice is Nice - <https://www.youtube.com/watch?v=LmUbx5XLNE>

Some other useful links:

- <https://www.kidcyber.com.au/north-and-south-poles>

Activity 1:

Purple Mash - Sharing - Shared Blogs - North and South Pole - Ice is Nice - After reading the audio book 'Ice is Nice', share your learning with other children. Tell us some interesting facts about the two locations. Can you find things that are the same and different between the two locations?

Activity 2:

Purple Mash - 2do - North and South Pole Fact File - Complete a fact file for the North and South Pole. Can you identify similarities and differences?
