Subject: Geography - Our World

LO: I can explain how continents can be different around the world.

Key Facts:

- There are 7 continents around the world.
- Continents may have different climates depending on where they are in the world.
- Because of the change in climate, people may live differently in different continents.
- Different type of animals live in certain continents because of the weather.

Activity

Write your teacher a letter telling them which continent you would like to live in and why.

You might want to see certain animals.

Do you want to visit a certain city?

Do you prefer hotter or colder weather?

Think about what activities you can do there e.g. safari in Africa or sledging in Antarctica.

You may want to include pictures in your letter.

Also, try to include the vocabulary you have learnt so far.

climate	continent	Weather
city	seasons	equator

Save your work on purple mash as 2Do: Week 5.
