

## WHISTON WILLIS PRIMARY ACADEMY

### **Personal Development and Safeguarding in the Curriculum**

Personal Development, safeguarding and the promotion of fundamental British values are a core business of our work at Whiston Willis Primary Academy. Great importance is placed on identifying opportunities in the taught curriculum, based on contextual issues, for children to learn about safeguarding and how the children can develop themselves personally. Our broad curriculum gives pupils opportunities to experience life in all its diversity, to acquire knowledge, understanding and skills that significantly impact on personal development, behaviour and welfare and equips every child with the knowledge and skills required for personal safeguarding. Our Jigsaw curriculum covers all areas of Safeguarding through each of the strands to a different degree, however some go into more detail. We are sensitive in our teaching and recognise that some more sensitive subjects need to be taught at an age appropriate level, or at a small group or 1:1 level where a more urgent need arises with a child's safety or rate of personal development.

We plan to constantly challenge children to think deeply about safeguarding matters and their own personal physical, social and mental wellbeing. We value pupils' questions and give them space for their own thoughts, ideas and concerns. We give them opportunities across the curriculum to explore values, personal rights, responsibilities and equal opportunities that develop moral concepts that impact positively on safeguarding, personal development, promote British values and prevent radicalisation and extremism.
