

Year Groups: Years 1 and 2 (KSI)    Date: Monday 15th June 2020

Subject: Science - Plants

LO: I Identify and name a variety of common plants, including garden plants, wild plants and trees, and those classified as deciduous and evergreen

Prior learning: What are the parts of a plant?

New Learning: Identifying deciduous and evergreen

### Activity 1: Purple mash quiz

- First watch the video clips.
- Then complete the quiz on purple mash.

### Watch the clips!

Are plants the same all year round?

### Activity 2: Drawing for science

- Look at the evergreen and deciduous tree charts provided.
- Draw evergreen and deciduous tree leaves into a table like in the example below.
- Label the similarities and differences.

Evergreen	Deciduous
 <p>The leaves are thin and spiky.</p>	 <p>The leaves are flat and wide.</p>
