

WHISTON WILLIS PRIMARY ACADEMY

Year Groups: Years 1 and 2 (KS2) Date: Monday 4th May 2020

Subject: Science - Seasonal Change

LO: I can observe and describe weather associated with the seasons

LO: I can perform simple tests

Prior learning: What is a season? What are the names of these?

Key Facts:

What is wind?

- You cannot see wind.
- Wind is air in motion
- Wind can come from different directions and travel at different speeds.
- Wind occurs throughout the year in every season.
- A weather vane can help you to see which direction the wind is blowing in. E.g North, South, East or West.

Pre-Learning Activity: How can we measure wind?

<https://www.youtube.com/watch?v=SqbTrbxWTlo>

Activity 1:

1. Take the children outside, the adult can blow bubbles, and the children can walk/run in the direction the bubbles are travelling.
2. Follow the link below to create your own wind vane.

You will need to use a compass on a smart phone to find the direction of North for your wind vane.
